Network Engineer, Amsterdam area

Fluent in Japanese and English

About the organization:

Our customer is a Japanese ICT service provider who is continuously finding solutions to modernize technology. From their office in Amsterdam, they provide consultancy, infrastructure, network, cloud, IoT and security services to optimize the ICT environments of enterprises in the Netherlands.

Currently, they are looking for a Network Engineer who will work exclusively for their global leading customer at their site. At the beginning of the job, a training, arranged by the company, will be provided.

Job description:

- Full-time IT and Network Engineering support at customer site

Requirements:

- Holding a working visa in Netherlands.
- Language proficiency with fluent Japanese and English.
- Good understanding of the ICT industry and interest in learning the fast-changing ICT marketplace; knowledge for Palo Alto and/or MPLS is useful.
- Previous experience in ICT industry would be an advantage.
- Strong communicator with a mindset aiming for the customer satisfaction.
- Strong skills in MS Office Outlook, Word, Excel, and PowerPoint.
- Self-starter with strong self-motivation and hands-on approach.
- Able to commute to the Amsterdam's office.

If you are interested in this role, please send your CV to info@miyajimarecruitment.com (Ms. Yumiko Miyajima) or please call for more information to +31.6.14690830.
